## FULL-PROCESS

1

### What is full-process?

We select each board to perfectly match the end product. It is going through the whole production process from double planner to final touch handmade by skillful carpenter.

Nail holes, surface crack, end split are all either glued or plugged.

### Processing

2

### Pick the thickness

**18mm**

Our standard size

**Or by special order**

We can go up to 40mm

3

### Pick the width

**Uniform**

All boards are same width, easier for laying

**Varied**

Boards are a mixture of fixed widths, providing more variety; although you have to match ends when laying

4

### Pick the length

**s**

**Random**

Boards are between 60 to 400 cm

**ss**

**Incremental**

We cut the boards to match the center spaces between your joists

**sss**

**Fixed**

We cut the boards to specific lengths requested by you

*Extra cost*

*Extra cost*

5

### Choose a texture

**Ulin original rustic**

**Ulin classic smooth**

6

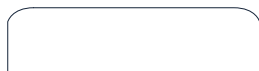

Want to make it even better?

- Lay on our reclaimed **joists or battens**  
*Find more info in our Lumber section*
- Use our high quality metal fittings like **hidden fasteners**

- Make your wood last with our Non-toxic **decking oil**
- Use qualified **flooring installers**  
*Ask us who we recommend*
- Get our decking installation guide

Kaltimber decking is perfect for your garden, balcony or pool deck .

Here's a guide to help you choose what's best for you.

## SEMI-PROCESS

1

### What is semi-process?\*

We take raw boards on top of the stock pile and process it such as square edges (see below) and in addition it goes through our molding to put a profile on. Nail holes, surface cracks and end split are left untouched. Boards are always power wash with water to clean dirt and mud.

## SQUARE EDGES

1

### What is square edges?\*

We take raw boards on top of the stock pile and process it. It is going through our double planner to reach a fix thickness and once on our single rip to get straight edges and consistent width. Nail holes, surface cracks and end split are left untouched. Boards are always power wash with water to clean dirt and mud.

### Processing

2

### Pick the thickness

**20mm**

Our standard size

**No custom size**

3

### Pick the width

**Uniform**

All boards are same width, easier for laying

**Varied**

Boards are a mixture of fixed widths, providing more variety; although you have to match ends when laying

4

### Pick the length

**\$**
